

**TECHNOLOGY
SCIENCE
CORPORATION**

Overview

Incorporated in 1997, Technology Science Corporation (TSC) is a Verified Service-Disabled Veteran, Minority, Woman-Owned Small Business specializing in premium cleared technical staffing and Information Technology (I.T.) services in support of Civilian and Department of Defense agencies.

Owner, Ms. Thu Stubbs, has over 25 years experience in the Information Technology industry starting from Army Captain in Communications Electronics supporting US/NATO nuclear missions and transitioning to business development for major computer manufacturer, defense systems integrators, and IT product resellers.

TSC Value

TSC's goal is to provide high quality, practical, and creative solutions which keep pace with state of the art technology, limited budgets, and tight deadlines. We bring innovative, turnkey solutions and perform with precision delivery focusing on improving efficiency and cost savings. TSC offers big corporate solutions with small business attention to detail and quality customer care.

TSC Approach

Our past success in designing, deploying, and managing products and technical services for large defense contractors, I.T. manufacturers, and resellers gives us expertise to bring best practices from Fortune's top companies to solve complex business challenges and perform with the customer service found in a small company. We encourage and promote a culture heavily vested in creative problem solving, responsiveness, always in search of high-quality, lower cost, process improvement, and "out-of-the box" best value solutions. We execute by listening to an agency's issues, customizing the solution to meet its environment, and perform with integrity to meet expectations. We understand the framework of federal procurement and the importance of collaboration with End User, Program Management, and Contracting to produce a winning solution. Our goal is to be your agency's trusted long-term IT service partner of choice!

 - * *Dept of Commerce VTC Install & Training*
 - * *Fairfax County, VA Conference Rooms*

5. Structured Voice/Data Cabling Services

- ◆ Copper and Fiber Cabling
- ◆ Passive Optical Network (PON)
- ◆ Facility Surveillance /Physical Security Installation
- ◆ Past Projects
 - * *FTC Cable Audit and Installation*
 - * *Census Fiber Cabling*

CUSTOMERS

Soldier-2- Citizen Initiative

Technology Science Corporation believes in promoting and encouraging the selection and placement of our military veterans in appropriate civilian and federal projects or careers. Military personnel offer a number of benefits to a prospective employer. They have been trained with an I.T. skill, shoulder tremendous responsibilities, stress tested, loyal, have active security clearances, and strong work ethics thus making them ideal employees. TSC strives to “pay forward” and serve those who have put their lives on the line to protect our global interests by connecting veterans with employers who value their experience and skills. Team TSC will assist with on-the-job training and mentoring in the performance of TSC task orders. TSC proudly joins the following organizations strongly in endorsing the Soldier-2-Citizen initiative.

Wounded Warrior Mentor Program

(quoted from WWMP website)

In 2004, the West Point class of 1958 initiated a mentoring program for wounded Soldiers and Marines at Walter Reed Army Hospital in Washington, D.C. when it became apparent that Wounded Warriors needed more individual attention than the Army could provide. Wounded Warriors needed additional one-on-one assistance focus on a new profession and new life, as well as counseling on benefits, jobs, educational opportunities, finance management, and navigating the military medical system. The program is for service members wounded/ injured in Operation Iraqi Freedom or Operation Enduring Freedom (Afghanistan). Technology Science Corporation’s **CEO** *proudly serves as a mentor* in this worthwhile program.
