

Damien Carter: CHAIRMAN/ CEO; owner of DPPS Group of Companies and a Certified Results Coach, a Trinidad & Tobago based Asset and Operations Management Solutions firm. His company is involved in the Oil, Gas, Construction and Petro-Chemical sectors, and has ongoing projects locally, with business interests internationally. His clients have included Michael Baker Corporation, Trinity Exploration and Production, Trinidad Cement Limited, PLIPDECO, Schlumberger, BHP Billiton to name a few.

Over his 28 plus year span in the industrial sectors with working technical backgrounds in Project, Operations and Maintenance Reliability Management, and being certified in various courses of study; Mr. Carter has gained the knowledge, experience and has had proven successes throughout his tenure in the Oil, Gas, Petro-Chemical and Construction sectors. Establishing his-self in the various sectors, Mr. Carter's first experience and success started in the Construction Sector in estimating engineering. This was the stepping stone for Mr. Carter and has paved the way for his passion and continued success in supporting People, Process, and Systems in an organization.

Mr. Carter from a young age, understood the meaning of responsibility and care of assets; and has been, and continues to be meticulous to detail. He has had the opportunity to work in various disciplines, and has proven to be an exemplar of success in each portfolio he has held over the years. Mr. Carter has held positions in local, international and multi-national corporations and comes from a working background in the fields of environmental, operations, project and construction management, operations maintenance and reliability management, planning, supervisory management, and has proven his abilities to succeed in each field.

With a passion to "help others help themselves" Mr. Carter launched DPPS Company Limited. Designed to understand and fulfill the needs of its clients, DPPS encompasses the skills, experience, and knowledge of its greatest asset, its people; packaging this into the support and services to provide a "headache free" operating environment for its clients.

With his background and proven ability to design and implement projects of various scale, Mr. Carter is adept at determining requirements for projects, reliability improvement, operating and project controls and mitigation of risk. With this ability he sets the path of success for the clientele of DPPS and the DPPS Group of Companies.

To date, through his vision and passion to create the "Right Environment" and a "Solutions Based" support service avenue, Mr. Carter incorporated and has the support through alliances of numerous leaders and organizations in the industry around the world to achieve this goal. He has expanded the DPPS organization through the relevant accreditations into an international presence; furthering this with the opening of its international sister company DPPS International Inc. (2009) in the United States of America for the continued support of O&M, Project, Reliability Management and Expediting Services.

Technical Skills

Operating Systems: Microsoft Office, Windows

Applications/Tools: MS Office, Visio, Microsoft Projects, Primavera, Smart Draw, Auto CAD, Maximo, DST, SALVO

Professional Experience

DPPS Company Limited October 2004 to Present
